

ERIN GRAND

Data Scientist with 10+ years of experience in data processing, automating, and creating predictive modeling. Constantly learning something new. Very involved in the R open source community.

EDUCATION

2016
|
2014

M.S. Data Science

Columbia University

📍 New York, NY

2014
|
2007

M.S. Astronomy and B.S. Astronomy and Physics

University of Maryland

📍 College Park, MD

RESEARCH EXPERIENCE

2014
|
2011

Research Assistant

University of Maryland

📍 College Park, MD

- Researched formation mechanisms of molecular pillars, including the Eagle Nebula's Pillars of Creation.
- Used Python to compare observations of high-density gas with theory predictions; visualized, analyzed, and presented the results.
- Ran the observations and administrative pipeline at the CARMA observatory.

2011
|
2010

Summer Intern

NASA Goddard Space Flight Center

📍 Greenbelt, MD

- Performed data analysis in Perl on raw Swift observatory data to produce a three-color ultraviolet image of the Andromeda Galaxy.¹
- Image featured twice on NASA's Astronomy Picture of the Day since publication. Astronomy Picture of the Day² twice since publication
- Developed Bash shell scripts to automate aspect-ratio correction of Swift satellite imagery, improving data quality and standardizing inputs for downstream analytics pipelines.

INDUSTRY EXPERIENCE

Current
|
2024

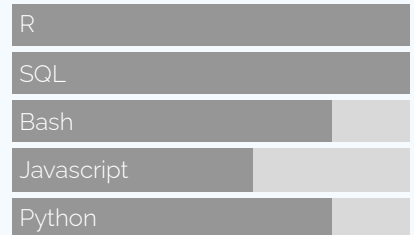

Freelance Data Scientist

- Developed and evaluated classification models in R to predict student success, improving targeted tutoring.
- Evaluated the impact of clients' programming by analyzing student performance, attendance, and graduation data.

LANGUAGE SKILLS

RELEVANT SKILLS

GitHub, Gitlab, dbt, Docker, AWS
Redshift

I am passionate about education. I believe that no topic is too complex if the teacher is empathetic and willing to think about new methods of approaching task.

2025
|
2024

Senior Data Scientist, Evaluation and Research

TRAILS to Wellness

- Designed and automated quarterly metrics pipelines across multiple projects, delivering scheduled reports for leadership using R and GitHub Actions.
- Trained and mentored a team of data analysts in using GitHub and R; developed several trainings and SOPs on coding best practices.

2024
|
2016

Senior Data Scientist

Uncommon Schools

📍 New York, NY

- Produced high-quality analytics work around student and staff data, including prediction models around student state exams, student enrollment, and staff attrition/recruitment.
- Communicated effectively with stakeholders throughout analysis projects.
- Developed dbt models to transform raw AWS Redshift tables from Salesforce into clean, analytics-ready datasets for BI, ad-hoc analysis, and predictive modeling.
- Led 6+ group trainings on the R programming language for 10+ coworkers, created Git training and policies to introduce Git to the team
- Automated annual state exam reporting via reproducible R/SQL pipelines, reducing processing time by 10+ hours per cycle and improving reliability.

2016
|
2015

Data Scientist

Crisis Text Line

📍 New York, NY

- Built and shipped a new volunteer application that 7600 applicants used. Increased the completion rate from 40% to 90%.
- Identified key drop-off points for trainees; produced cohort analyses of key metrics and identified unique differences among cohorts to provide trainers with new solutions.
- Identified and monitored counselor attrition as a top organizational priority. Developed automated tracking, reporting, and analysis of related metrics.

2016
|
2014

Data Librarian / Software Engineer

NASA Goddard Space Flight Center

📍 Greenbelt, MD

- Reformatted science data images to be compatible with WMS tile servers; images are part of the educational Science on a Sphere and NASA Earth and Space Observatory programs.
- Programmed new iPad kiosks for traveling Hubble Space Telescope exhibits using HTML, JavaScript, and Kiosk Pro.

TEACHING EXPERIENCE

I am passionate about education. I believe that no topic is too complex if the teacher is empathetic and willing to think about new methods of approaching task.

2014
|
2010

Teacher's Assistant

University of Maryland

📍 College Park, MD

- Developed discussion activities, motivated group discussion and peer learning, incorporated technology resources such as educational online videos, and graded assignments
- Received award for Excellence and Innovation in Undergraduate Teaching in the I-Series Courses
